

PLANTERS

Terraform crafts quality bespoke planters that add character and definition to your outdoor spaces. Our planters are made with aluminum; a lightweight, weather resistant, durable, and infinitely recyclable material which we powder coat with the color of your choice to create a robust protective layer that resists rust, corrosion, chipping, and fading.

We also offer different shapes and cladding in a variety of materials to add visual appeal and style to your planters. Each planter can be customized as much as you'd like.

Placement of free-standing and groups of planters can delineate specific areas for different uses in both large and small spaces.

CHOOSE YOUR PLANTER STYLE

Standard Planters

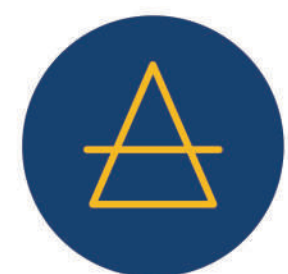

Our Standard Planters are made to order from .125" aluminum with integrated cleats and drainage holes. They're great for grouping planters in clusters for visual impact or using them to define spaces and add privacy.

Slab Planters

Our Slab Planters have no lip for a clean, minimalist, elegant, and modern design. These planters are made to order from .187" aluminum with integrated cleats and drainage holes.

Connect Planters

Create trough-style containers with our Connect Series Planters that are custom fabricated for your space. These are made to order from .125" or .187" aluminum with lowered joining partitions to allow for a continuous layer of mulch for a seamless look. These also include integrated cleats and drainage holes.

CHOOSE YOUR PLANTER SHAPE AND COLOR

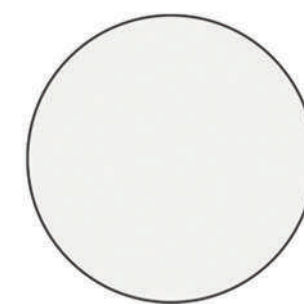

Planter Shapes

Our planters can be made in any shape or size. Whether you need rectangular, rounded, cylindrical, angular, or square, we can accommodate. We build each planter with your specific space in mind.

Need to hide utilities and irrigation? Not a problem! Each planter can be customized as much or as little as you'd like.

Powder Coated Aluminum Colors

Our planters are made with aluminum which we powder coat with the color of your choice to create a robust protective layer that resists rust, corrosion, chipping, and fading. Don't see something you like in our standard colors? Don't worry, we can help you discover your perfect match with a custom color.

ADD CLADDING OR TRIM TO YOUR PLANTERS

Looking for a different style? Want to add texture or negetive space? Looking to match existing paving or structures? Try cladding or trim!

We offer cladding in a variety of stone and wood to add visual appeal and style to your planters.

Together we'll find the perfect material that represents your aesthetic.
